Ok,

I was missing the name of Erdal in the list

Sincerely
Agostin Bruzzone

Dear Agostino, changes agreed, only Technology trends for M&S must stay as it was originally named. It was Erdal idea and he will introduce this topic in 1 h presentation.
BR Jan

Dear Jan,

I will be probably unable to test on Win 7, therefore let see how it will work, considering that most critical part is expected for day 2.

By the way titles refining was not included, sorry, and now I include it:

Simulation life cycle
Deterministic-Stochastic-Aggregated-Military models
Model Development & Experimentation - hands on
Human behaviour modeling
Human behaviour modeling - hands on
CAX process and suport of M&S
Innovative Simulation and Technology trends
Iteroperability/Distibuted simulation
HLA
HLA - hands on

Sincerely
Agostino Bruzzone

Dear Agostino,

Speaking about titles, for sure we can be flexible, however only to certain extent☺.

In our training room Win 7 is installed and JVM is up and running.

For us it would be extremely difficult to install Win 8 and I suppose that it is not feasible in 3 following days (there is almost nobody). Therefore please make your test on Win 7 platform. Is that OK ?

Please send me titles ASAP.

Jan

Subject: RE: M&S Basic Course

Dear Jan,

I send you some minor changes in titles if they are still possible, about the exercise, I and Angelo, we are finalizing the test; therefore I will confirm before Thursday details about needs; usually we need

Java Virtual machine Loaded on the Computer, WinXP, therefore we will be completing tests on Windows 8.

Sincerely

Agostino Bruzzone

Subject: M&S Basic Course

Dear Agostino, hoping you are doing well.

Do you need anything special to be installed in our laboratory for M&S Basic Course?

Anything for:

1. Model development hands on
2. Human behavior hands on
3. HLA hands on

Please give me a replay ASAP. Cheers Jan
